

## VLCD-WK4

### 2.4GHz Wireless Camera Monitor System

## Benefits

- Easy to Install, Plug and Play
- Wireless camera mount over license plate
- Can Be Used For Rear View, Side View, or Blind Spot
- Ideal For Any Vehicles
- Enhance Safety and Security
- Help increase situational awareness
- Mitigate risk

## Key Features

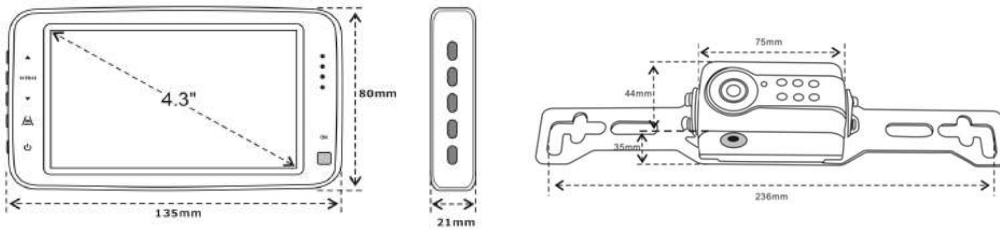

- 2.4GHz wireless 4.3" LCD monitor
- 1/3.7" CMOS Sensor – 420 TV Lines
- Range up to 55ft
- 120 degrees wide angle viewing
- IR LED – Night Vision
- Rugged metal housing camera
- IP68 Rating outdoor camera
- Normal, Mirror, Flip viewing option
- OSD Control – Contrast, Brightness and Saturation
- Digital pairing, easy to re-sync

## VLCD-WK4

### 2.4GHz Wireless Camera Monitor System

The VLCD-WK4 is a 2.4GHz wireless digital camera monitor system ideal for any type of vehicle. It is extremely easy to install, without the hassle of running cables and wires under or inside the vehicle. Simply plug the monitor into an aux power and the wireless camera connects to the reverse light for power. The digital spectrum minimizes interference, providing a clear and vivid video with distance guide line.

Wireless camera mount over license plate
